

Arizona Comprehensive Cancer Control Coalition Membership Form

Comprehensive Cancer Control is a process achieved through a partnership of public and private stakeholders whose common mission is to reduce the overall burden of cancer. The Centers for Disease Control and Prevention defines Comprehensive Cancer Control as an “integrated and coordinated approach to reducing the cancer incidence, morbidity, and mortality through prevention, early detection, treatment, rehabilitation, and palliation” The Comprehensive Cancer Control Coalition is developing a statewide, 5-year comprehensive plan to reduce the burden of cancer in Arizona.

A state cancer plan will be a document, which will represent the collective voice of public and private stakeholders. The plan will help Arizona promote the coordination of efforts and improve the ability to deliver efficient programs and services to the public. Over time it will be used to prioritize funding and public policy related to cancer in Arizona.

The success of Arizona’s comprehensive cancer control process depends on the commitment and involvement of a variety of partners who are willing to share their expertise, resources, and experiences.

Please take a few minutes to complete this form. This is an opportunity for you to offer your organization’s support and commitment to the comprehensive cancer control effort in Arizona.
